Countdown

Day 02

3D Concertina Window Card

Download the cutting file from craftwithsarah.com/CCC2

Supplies List

- Cricut machine / Silhouette / ScanNCut
- Light grip cutting mat
- Dark green card
- Gold glitter card
- White card
- Patterned paper (mine is from a now-retired scrapbook set)
- Christmas embellishments/toppers (mine are all from my craft stash, collected over many years!)
- Gold border peel-off stickers
- Double sided tape runner
- Needle Tip Applicator Bottle
- 3D foam pads
- Gold Nuvo Crystal drops (optional)
- Bone folder (optional)

Instructions

Full instructions with photos and a video are available at craftwithsarah.com/CCC2

- 1** Download the cutting file from the link above and unzip the folder
- 2** Open EITHER the Design Space Project link OR the SVG file. If you choose the SVG file, you MUST format it before you can cut it. See the website link above for instructions.
- 3** FRONT PIECE: With the front side of the card facing upwards, mountain-fold along all the score lines.
- 4** CONCERTINA PIECE: Position it so that the “larger” rectangles are at the top. Fold along the score lines, starting at the bottom. Your folds should be: Valley fold, Mountain fold, Valley fold, Mountain fold, Valley fold.
- 5** Put double-sided tape down the front “tab” piece on the concertina.

Stick it to the bottom of the inside of the front piece.

6 BACK PIECE: Fold both score lines upwards (valley folds) on the back piece of the card.

Stick the two decorative squares in the middle.

Stick the white square of card and the matching glitter piece onto the back of the same piece of green card. This is where you will write your message.

7 Add double-sided tape to the tab of card on the back of the concertina piece of card.

Stick the back piece of card to that piece of double-sided tape. The message side (white square) should be facing outwards.

Add double-side tape to the thin tab at the side of the back piece of card.

Fold up the edges from the front piece and attach to the double-side tape.

Repeat for the other side.

8 DECORATE THE CARD: When you're adding your decorations in the middle, you need to think about how it will appear when it is folded flat. Don't put anything too close to the edges that will go underneath the two sides of the card, otherwise you won't get that flatness.

I added various Christmas themed toppers and embellishments from my craft stash, including some adorable little wooden reindeer, glitter poinsettias and a foiled sentiment topper.

I then decorated the sides of the card with gold border peel-off stickers for a little bit of extra glam!
