- 1 Download the cutting file from the link above and unzip the folder
- 2 Upload the cutting file into your cutting machine software. For Cricut Design Space you **must** use the file that start SVG\_ in the filename
- 3 The SVGs should load in at the correct size, but double-check before cutting them.  
Reindeer: 4.006 inches wide and 8.585 inches tall  
Snowman: 2.787 inches wide and 8.196 inches tall.
- 4 Glue the layers together. There is a file in the download folder called **Assembly Guide.pdf** that shows the order to stick the layers together in.
- 5 Position the chocolate inside the middle of the sweet holder and use double-sided tape to close it at the top and seal the chocolate in place.
