- 2 Upload the cutting file into your cutting machine software. For Cricut Design Space you **must** use the file called SVG\_Cardinal\_CraftWithSarah.svg
- 3 Measure your frame to work out what size to cut the design
- 4 Resize the design in your cutting machine software
- 5 Cut out all of the layers from cardstock
- 6 Stick the layers together using a combination of foam pads/squares and glue. There is a file in the download folder called **Assembly Guide.pdf** that shows the order to stick the layers together in.
