

## Off-the-Mat Snowman Sign

Width: 28 inches Height: 13.987 inches

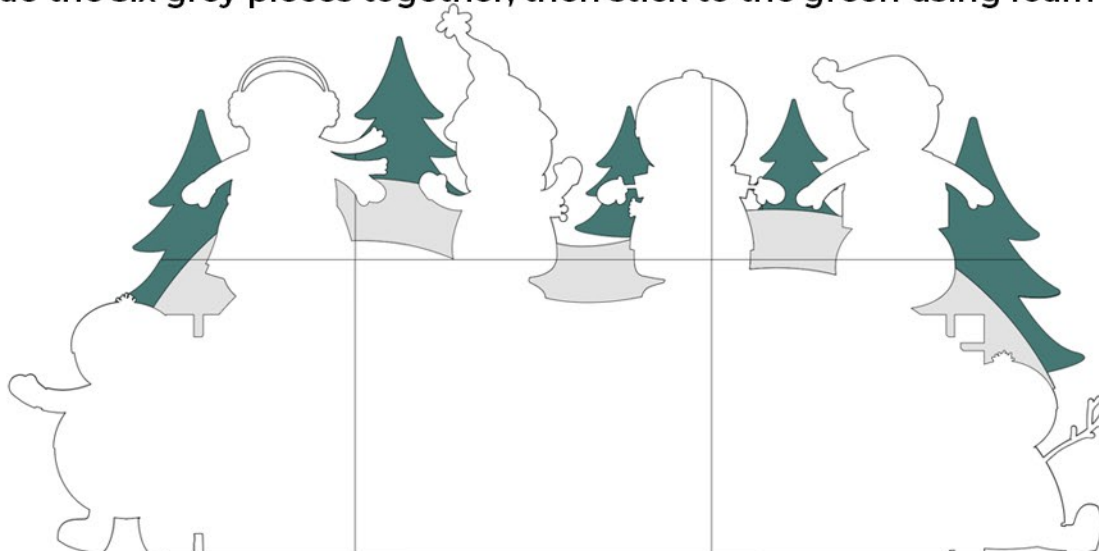

Cut all layers from card apart from the black and orange which should be cut from adhesive vinyl.

1 - Glue together the 4 base pieces so that the shape cutouts all line up with each other. This lets you know that each piece is positioned and overlapped correctly. Use sticky tape on the back along all the join lines to help give it more stability. Thread twine or ribbon through the two top circles and secure.

2 - Glue the six grey pieces together, then stick to the green using foam squares

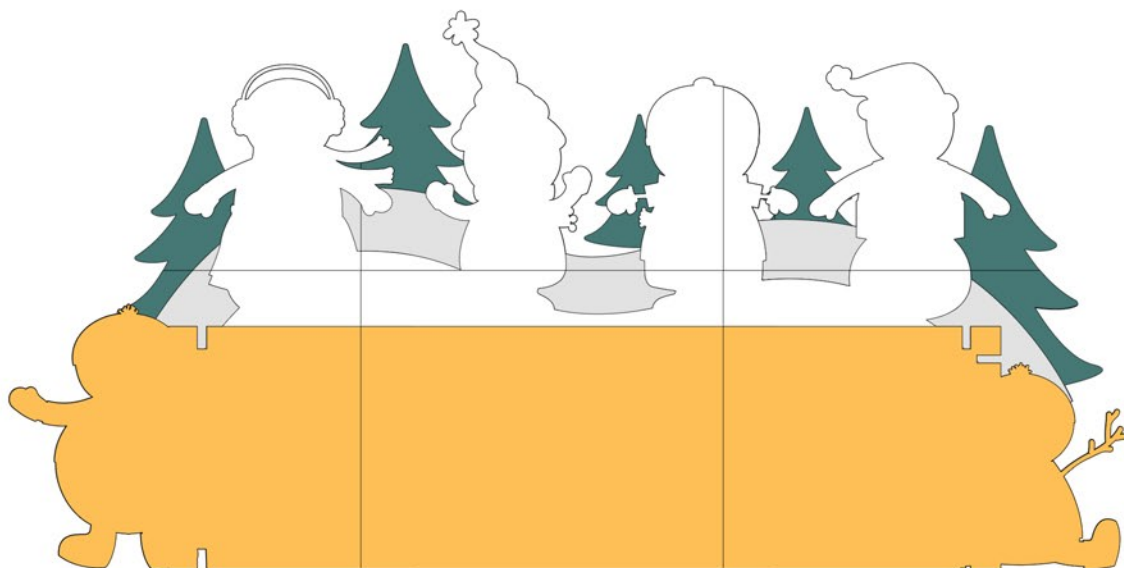

3 - Glue the white pieces directly on top

## Off-the-Mat Snowman Sign

Width: 28 inches Height: 13.987 inches

Cut all layers from card apart from the black and orange which should be cut from adhesive vinyl.

4 - Glue the yellow plaque pieces together and then foam to the sign

5 - Glue the decorative border pieces directly on top

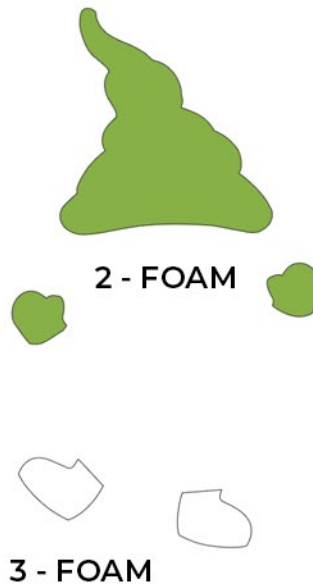

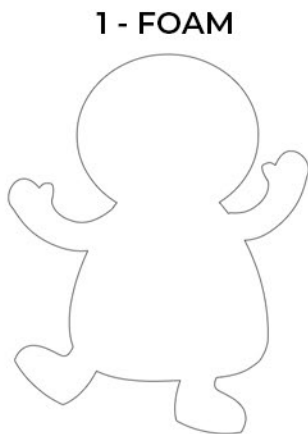

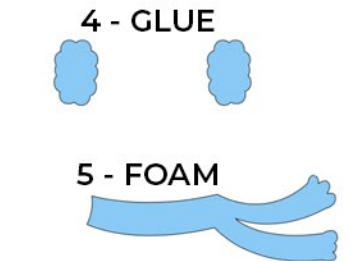

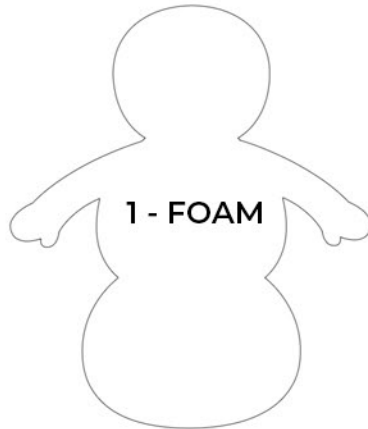

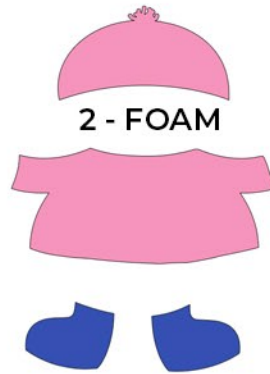

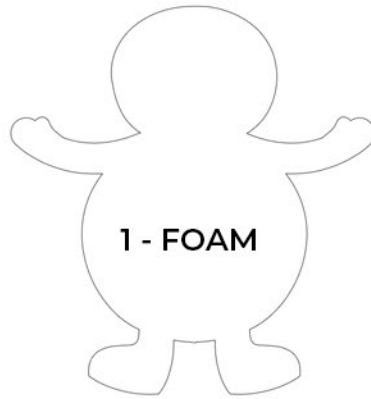

6 - Foam the offset layer of the text

7 - Glue the text on top
